Fire Department Offers Free Home Fire Safety Inspections

The Maplewood Fire Department offers free in-home fire inspections for township residents. Fire safety in the home should involve the whole family, young and elderly alike. Firefighters will come to your home to help identify fire hazards and make suggestions to improve home safety for your family. Inspections generally take about one hour and during the inspection, some items discussed are correct placement and testing of smoke and carbon monoxide detectors, fire escape planning, proper removal of hazards, and proper types and placement of fire extinguishers.

For additional information or to schedule an appointment to have a fire safety inspection in your home, contact the Deputy Chiefs' office at Maplewood Fire Headquarters: 973-762-6500, ext. 17.
