Township Committee
Township of Maplewood
574 Valley Street
Maplewood, NJ 07040

Dear Members of the Maplewood Township Committee and Citizens of the Township of Maplewood:

The Comprehensive annual financial report of the Township of Maplewood for the year ended December 31, 2103 is hereby submitted as mandate by state statute. New Jersey statute requires that the Township of Maplewood issue annually a report on its financial position and activity, and that this report be audited by an independent Registered Municipal Accountant. Responsibility for both the accuracy of the data, and the completeness and fairness of the presentation, including all disclosures, rests with the management. To the best of our knowledge and belief, the enclosed data are accurate in all materials respects. All disclosures necessary to enable the reader to gain an understanding of the Township of Maplewood's activities have been included.

The comprehensive annual financial report is presented in five sections: introductory, financial, statistical, single audit and general comments and recommendations. The introductory section which is unaudited, includes this letter of transmittal, an organization chart and a list of the Township of Maplewood's principal elected and appointed officials. The financial section includes the general purpose financial statements and the combining and individual fund and account group financial statement and schedules, as well as the independent auditor's report on these financial statements and schedules. The statistical section which is unaudited includes selected financial and demographic information, generally presented on a multi-year basis. The single audit section includes the auditor's report and the schedules of federal and state financial statements. The Township is required to undergo an annual single audit in conformity with the provisions of the Single Audit Act of 1984 and the U.S. Office of Management and Budget's Circular A-133, "Audits of State and Local Governments" and State Treasury Circular 04-04-OMB.

The financial reporting entity (the government) includes all the funds and account groups of the Township of Maplewood. Component unit as defined by the Governmental Accounting Standards Board are not presented as the State of New Jersey does not require that component units be considered for reporting purposes. The government provides a full range of services including police and fire protection; the maintenance and construction of roads and related infrastructure; recreation and cultural affairs; and health services.

The Township of Maplewood is a municipality located approximately 16 miles west of the City of New York. It has a population of approximately 24,000 according to the 2010 census. The Township is served by Springfield Avenue (formerly a state highway) and Valley Street a county roadway. The Township was incorporated in 1922. The voters elect its governing body of five members on an annual basis with two, two and one member(s) up for election in any one year. The members of the Township Committee vote among themselves each year for a chair that serves a "mayor" who functions as the chief executive office of the Township. The governing body appoints a business administrator who is the Township's chief operating officer. The Township is approximately 3.8 square miles in area. The government is empowered to levy taxes on real property of which 90% of the properties are residential and the remaining 10% are commercial.

The Township's economic environment has stabilized and there was no reduction in workforce or mandatory furlough days in 2013. A major pharmacy located on Springfield Avenue in Redevelopment Zone Three. Another redevelopment project on Springfield Avenue in Redevelopment Zone One is scheduled for completion in 2014. Additional retail space and seven apartment units will soon rise on the property. An additional 126 units of rental housing and eight condominium units known as "Maplewood Crossings" begin construction was half completed in 2013 and the second phase is due for completion in spring 2014. Full occupancy of this project is anticipate by early summer 2014. On Valley Road, a "dollar store" that occupied a former A&P Supermarket was sold and will be demolished and will make way for a CVS Pharmacy.

MAJOR INITIATIVES

The governing body identified several major improvements that were needed to meet the citizens' demands for services and to safeguard the environment in conformity with federal and state standards. These improvements include the continued monitoring and remediation of environmentally impacted town-owned properties; continued road improvement projects; completion of the Phase I Upper Ridgewood Road Drainage Project; renovations to the municipal community pool; continued progress on developing Redevelopment Areas I, II, and III and the purchase of 60 Woodland Road (former Woman's Club) for community use. The Township was awarded Silver Status municipality through the Sustainable Jersey process.

FUTURE INITIATIVES

The governing body expended significant time and effort to obtain residents' input about the future look and function for the redevelopment of the Maplewood Post Office site. In 2013 this property reverted back to the Township at the conclusion of a 50 year lease. This is a once in a lifetime opportunity to impact Maplewood Village. The Township has chosen a developer and is negotiating a sale price. In addition the Township assisted the U.S. Postal Service to relocate the Maplewood Village Postal facility elsewhere in Maplewood.

The second big impact project is the private sale and redevelopment of the Public Service Electric and Gas Research Facility on Boyden Avenue at Springfield Avenue. The governing body had a study completed which determined that the area was in need of redevelopment. A developer has a contract to purchase the property and is negotiating with the Township on the scope of the project.

Maplewood Township received a grant for \$95,000 from Together North Jersey to do a strategic study of the Irvington Avenue business corridor. The Township will work with the Township of South Orange Village, the City of Newark and the Township of Irvington all of whom border the corridor on this important endeavor.

In 2009 the Township was forced to cut it police force in order to deal with the decreased revenues and other effects of the major recession. In 2014 the Township's goal is to bring its number of uniformed police department employees up to full authorized strength through its current budget expenditures and a federal grant program application.

The Township is now purchasing Information Technology from a neighboring municipality and will continue its town-wide Wellness and Green initiatives.

FINANCIAL INFORMATION

Management of the government is responsible for establishing and maintaining an internal control structure designed to insure that the assets of the Township are protected from loss, theft or misuse and to ensure that adequate accounting data is compiled to allow for the preparation of financial statements in conformity with accounting principles prescribed by the Division of Local Government Services, State of New Jersey. The internal control structure is designed to provide reasonable, but not absolute, assurance that these objectives are met. The concept of reasonable assurance recognizes that: (1) the cost of a control should not exceed the benefits likely to be derived; and (2) the valuation of costs and benefits requires estimates and judgments by management.

As a recipient of federal, state and local financial assistance, the government is also responsible for ensuring that an adequate internal control structure is in place to ensure and document compliance with applicable laws and regulations related to these programs. This internal control structure is subject to periodic evaluation by management and internal audit staff of the government.

As part of the government's single audit, tests were made of the government's internal control structure and of its compliance with applicable laws and regulation, including those related to federal financial assistance programs. Although this testing was not sufficient to support an opinion on the Township's internal control system or its compliance with laws and regulation related to non-major federal or state financial assistance programs, the audit for the year ended December 31, 2012 disclosed no material internal control weaknesses or material violations of laws and regulations.

In addition, the Township maintains extensive budgetary controls. The objective of these controls is to ensure compliance with legal provisions embodied in the annual appropriated budget approved by the Township Committee. The current and utility funds have legally adopted budgets in accordance with state statute. Project length budgets are established via ordinance for the general and utility capital funds. An encumbrance accounting system is used to record outstanding purchase commitments on a line item basis. Open encumbrances at year-end are considered part of liabilities at the end of the year and are expended in the subsequent year.

UTILITY OPERATIONS

The Township operates a pool utility and the community pool is open to residents, their families and guest for a membership fee. The community pool was open over 40 years ago. In 2013 the Township completed renovations to the facility's restroom. The pool utility was unable to maintain its self-liquidating status in 2013. The Township is working with the utility to address this issue.

DEBT ADMINISTRATION

CASH MANAGEMENT

The investment policy of the Township is guided by state statute. The Township has adopted a cash management plan which requires it to deposit funds in public depository protected from loss under the provisions of the Governmental Unit Deposit Protection Act (GUDPA). GUDPA protects deposits at participating institutions when the balance exceeds the FDIC insurance of \$250,000.00. Return on bank instruments has been minimal for several years due to national monetary policies.

RISK MANAGEMENT

The Township participates in The Garden State Municipal Joint Insurance Fund. The fund provides various types of insurance to participating members. The fund purchases reinsurance to protect it from catastrophic loss.

OTHER INFORMATION

Independent audit - State statute requires an annual audit by an Independent Registered Municipal Accountant. The accounting firm of Samuel Klein and Company, CPA's was selected by the Township. In addition to meeting the requirement set forth in state statutes, the audit was also designed to meet the requirement of the federal Single Audit Act of 1984 and the related OMB Circular A-133 and State Treasury Circular 04-04 - OMB. The auditor's report on the general purpose financial statements and the combining and individual fund statements and schedules are included in the financial section of this report. The auditor's report related to the single audit is included in the single audit section.

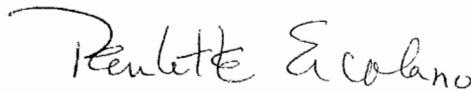

ACKNOWLEDGMENTS

We wish to thank the employees of all departments for their faithful service to the members of the community and to the Township Committee for their support.

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members
of the Township Committee
Township of Maplewood
Maplewood, New Jersey 07040

Report on the Financial Statements

We have audited the financial statements - regulatory basis of the various funds and account groups of the Township of Maplewood, in the County of Essex, as of and for the years then ended December 31, 2013 and 2012 and the related notes to the financial statements, as listed in the foregoing table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements - regulatory basis in accordance with accounting principles prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements - regulatory basis based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amount and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Township's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Basis for Adverse Opinion on U.S. Generally Accepted Accounting Principles

As described in Note 1, these financial statements - regulatory basis have been prepared in conformity with accounting principles prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America, to demonstrate compliance with the modified accrual basis, with certain exceptions, and the budget laws of New Jersey. The effects on the financial statements of the variances between the regulatory basis of accounting described in Note 1 and accounting principles generally accepted in the United States of America, although not reasonably determinable, are presumed to be material.

Adverse Opinion on U.S. Generally Accepted Accounting Principles

In our opinion, because of the significance of the matter discussed in the "*Basis for the Adverse Opinion on U.S. Generally Accepted Accounting Principles*" paragraph, the financial statements referred to in the first paragraph, do not present fairly, in conformity with accounting principles generally accepted in the United States of America, the financial position of the Township as of December 31, 2013 and 2012, and the results of its operations for the years then ended.

Opinion on Regulatory Basis of Accounting

In our opinion, the financial statements - regulatory basis referred to above, present fairly, in all material respects, the financial position of the various funds of the Township of Maplewood at December 31, 2013 and 2012, and the results of operations and changes in fund balance, where applicable, of such funds, thereof for the years then ended, in accordance with accounting principles on the basis of financial reporting provisions prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, as described in Note 1.

Other Matters

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements - regulatory basis that collectively comprise the Township's financial statements. The supplementary schedules listed in the table of contents are presented for purposes of additional analysis and are not a required part of the basis financial statements. The accompanying schedule of expenditures of federal awards is not a required part of the financial statements, and is presented for purposes of additional analysis as required by the U.S. Office of Management and Budget Circular A-133, *Audits of States, Local Governments, and Nonprofit Organizations*.

The supplementary schedules and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the financial statements. Such information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary schedules and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the financial statements taken as a whole.

Other Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued our report dated May 16, 2014 on our consideration of the Township of Maplewood's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township of Maplewood's internal control over financial reporting and compliance.

NOTES TO FINANCIAL STATEMENTS

TOWNSHIP OF MAPLEWOOD

**NOTES TO FINANCIAL STATEMENTS
YEAR ENDED DECEMBER 31, 2013**

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Reporting Entity

The Township of Maplewood was established by public referendum on November 7, 1922.

The Township of Maplewood is a Township Committee form of government in accordance with N.J.S.A. 40:14.6 et seq. The Township Committee consists of five members elected-at-large for three-year staggered terms. The terms of office are rotated so that no more than two Committee persons are elected each year. The members of the Township Committee run in partisan elections.

On January 1st of each year the Township Committee holds an organization meeting where it elects a chairperson who serves as Mayor for a one-year term.

Governmental Accounting Standards Board (GASB) Statement No. 14 establishes certain standards for defining and reporting on the financial reporting entity. In accordance with these standards, the reporting entity should include the primary government and those component units which are fiscally accountable to the primary government.

The financial statements of the Township of Maplewood include every board, body, office or commission supported and maintained wholly or in part by funds appropriated by the Township, as required by the provisions of N.J.S. 40A:5-5. The financial statements, however, do not include the operations of the Municipal Library, which is a separate entity and is subject to a separate examination.

B. Description of Funds

The Governmental Accounting Standards Board (GASB) is the recognized standard setting body for establishing governmental accounting and financial reporting principles. The GASB establishes three fund types and two account groups to be used by governmental units when reporting financial position and results of operations in accordance with accounting principles generally accepted in the United States of America (GAAP).

The accounting policies of the Township of Maplewood conform to the accounting principles applicable to municipalities which have been prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey. These principles are on the regulatory basis which differs from accounting principles generally accepted in the United States of America (GAAP) for governmental entities. Such principles and practices are designed primarily for determining compliance with legal provisions and budgetary restrictions and as a means of reporting on the stewardship of public officials with respect to public funds. Under this method of accounting, the Township of Maplewood accounts for its financial transactions through the following separate funds which differ from the fund structure required by GAAP:

Current Fund - Encompasses resources and expenditures for basic governmental operations. Fiscal activity of Federal and State grant programs are reflected in a segregated section of the Current Fund.

Trust Funds - The records of receipts, disbursements and custodianship of monies in accordance with the purpose for which each account was created are maintained in Trust Funds. These include the Animal Control Fund and General Trust Fund.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

B. Description of Funds (Continued)

General Capital Fund - The receipts and expenditure records for the acquisition of general infrastructure and other capital facilities, other than those acquired in the Current Fund, are maintained in this Fund, as well as, related long-term debt accounts.

Swimming Pool Utility Fund - The Swimming Pool Utility maintains its own Operating and Capital Funds which reflect revenue, expenditures, stewardship, acquisitions of utility infrastructure and other capital facilities, debt service, long-term debt and other related activity.

Public Assistance Trust Fund - Receipts and disbursements of funds that provide assistance to certain residents of the Township of Maplewood pursuant to the provisions of Title 44 of the New Jersey statutes are maintained in the Public Assistance Trust Fund.

Capital Fixed Assets - These accounts reflect estimated valuations of land, buildings and certain movable fixed assets of the Township as discussed under the caption of "Basis of Accounting".

Free Public Library – The Municipal Library Levy through budget appropriations and State Aid are transferred to the Free Public Library bank account and are expended with the approval of the Library for its purpose. Interest on investments, Library fines and other revenue are retained by the Library and expended therefrom. The Library is the subject of a separate report.

C. Basis of Accounting

The accounting principles and practices prescribed for municipalities by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, differ in certain respects from accounting principles generally accepted in the United States of America. The accounting system is maintained on the modified accrual basis with certain exceptions. Significant accounting policies in New Jersey are summarized as follows:

Property Taxes and Other Revenue

Property taxes and other revenue are realized when collected in cash or approved by regulation for accrual from certain sources of the State of New Jersey and the Federal Government. Accruals of taxes and other revenue are otherwise deferred as to realization by the establishment of offsetting reserve accounts. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual, reduced by an allowance for doubtful accounts.

Grant Revenue

Federal and State grants, entitlements or shared revenue received for purposes normally financed through the Current Fund are recognized when anticipated in the Township's budget. GAAP requires such revenue to be recognized in the accounting period when they become susceptible to accrual.

Expenditures

Expenditures for general and utility operations are generally recorded on the accrual basis. Unexpended appropriation balances, except for amounts that may have been cancelled by the governing body or by statutory regulation, are automatically recorded as liabilities at December 31st of each year, under the title of "Appropriation Reserves".

Grant appropriations are charged upon budget adoption to create separate spending reserves.

Budget transfers to the Capital Improvement Fund are recorded as expenditures to the extent permitted by law.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Expenditures (Continued)

Expenditures from Trust and Capital Funds are recorded upon occurrence and charged to accounts statutorily established for specific purposes.

Budget Appropriations for interest on General Capital Long-Term Debt are raised on the cash basis and are not accrued on the records; interest on Utility Debt is raised on the accrual basis and so recorded.

GAAP requires expenditures to be recognized in the accounting period in which the fund liability is incurred, if measurable, except for unmatured interest on general long-term debt, which should be recognized when due.

Encumbrances

As of January 1, 1986, all local units were required by Technical Accounting Directive No. 85-1, as promulgated by the Division of Local Government Services, to maintain an encumbrance accounting system. The directive states that contractual orders outstanding at December 31st are reported as expenditures through the establishment of an encumbrance payable. Encumbrances do not constitute expenditures under GAAP.

Appropriation Reserves

Appropriation reserves are available, until lapsed at the close of the succeeding year, to meet specific claims, commitments or contracts incurred during the preceding year. Lapsed appropriation reserves are recorded as additions to income. Appropriation reserves do not exist under GAAP.

Compensated Absences

Expenditures relating to obligations for unused vested accumulated sick, vacation and compensatory pay are not recorded until paid. GAAP requires that the amount that would normally be liquidated with expendable available financial resources be recorded as an expenditure in the operating funds and the remaining obligations be recorded as a long-term obligation.

Property Acquired for Taxes

Property Acquired for Taxes (Foreclosed Property) is recorded in the Current Fund at the assessed valuation during the year when such property was acquired by deed or foreclosure and is offset by a corresponding reserve account. GAAP requires such property to be recorded in the general fixed assets account group at market value on the date of acquisition.

Self-Insurance Contributions

Contributions to self-insurance funds are charged to budget appropriations. GAAP requires that payments be accounted for as an operating transfer and not as an expenditure.

Interfunds Receivable

Interfunds Receivable in the Current Fund are generally recorded with offsetting reserves that are established by charges to operations. Collections are recognized as income in the year that the receivables are realized. Interfunds Receivable of all other funds are recorded as accrued and are not offset with reserve accounts. Interfunds Receivable of one fund are offset with Interfunds Payable of the opposite fund. GAAP does not require the establishment of an offsetting reserve.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Inventories of Supplies

Materials and supplies purchased by all funds are recorded as expenditures.

An annual inventory of materials and supplies for the Swimming Pool Utility is required, by regulation, to be prepared by Township personnel for inclusion on the Swimming Pool Utility Operating Fund balance sheet. Annual changes in valuations, offset with a Reserve Account, are not considered as affecting results of operations. Materials and supplies of other funds are not inventoried nor included on their respective balance sheets.

Capital Fixed Assets

General:

In accordance with Technical Accounting Directive No. 85-2, Accounting for Governmental Fixed Assets, as promulgated by the Division of Local Government Services, which differs in certain respects from generally accepted accounting principles, the Township of Maplewood has developed a fixed asset accounting and reporting system.

GAAP requires that fixed assets be capitalized at historical or estimated historical cost if actual historical cost is not available. Depreciation on utility fixed assets should also be recorded.

Fixed assets used in governmental operations (capital fixed assets) are accounted for in the Capital Fixed Assets Account. Public domain ("infrastructure") general fixed assets consisting of certain improvements other than buildings, such as roads, bridges, curbs and gutters, streets and sidewalks and drainage systems are not capitalized.

Acquisitions of land, buildings, machinery, equipment and other capital assets are recorded on a perpetual fixed asset record.

Vehicles, furniture, equipment and other items are reflected at replacement values at time of inventory preparation. Additions to the established fixed assets are valued at cost.

Depreciation of assets is not recorded as an operating expense of the Township.

Utility:

Capital acquisitions, including utility infrastructure costs of the Swimming Pool Utility, are recorded at cost upon purchase or project completion in the Fixed Capital Account of the utilities. The Fixed Capital Accounts are adjusted for dispositions or abandonments. The accounts include movable fixed assets of the Utility but are not specifically identified and are considered as duplicated in the Capital Fixed Assets. The duplication is considered as insignificant on its effect on the financial statements taken as a whole.

Utility improvements that may have been constructed by developers are not recorded as additions to Fixed Capital.

Fixed Capital of the Utilities are offset by accumulations in Amortization Reserve Accounts. The accumulations represent costs of fixed assets purchased with budgeted funds or acquired by gift as well as grants, developer contributions or liquidations of related bonded debt and other liabilities incurred upon fixed asset acquisition.

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

C. Basis of Accounting (Continued)

Capital Fixed Assets (Continued)

Utility: (Continued)

The Fixed Capital Accounts reflected herein are as recorded in the records of the municipality and do not necessarily reflect the true condition of such Fixed Capital. The records consist of a control account only. Detailed records are not maintained.

Total Columns on Combined Statements

Total columns are captioned "memorandum only" to indicate that they are presented only to facilitate financial analysis. Data in these columns do not present financial position, results of operations, or changes in financial position in conformity with generally accepted accounting principles. Neither is such data comparable to a consolidation. Interfund eliminations have not been made in the aggregation of this data.

D. Basic Financial Statements

The GASB Codification also defines the financial statements of a governmental unit to be presented in the general purpose financial statements to be in accordance with GAAP. The Township of Maplewood presents the financial statements listed in the table of contents which are required by the Division of Local Government Services and which differ from the financial statements required by GAAP. In addition, the Division requires the financial statements listed in the table of contents to be referenced to the supplementary schedules. This practice differs from GAAP.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS

A. Cash and Cash Equivalents

New Jersey statutes permit the deposit of public funds in institutions located in New Jersey, which are insured by the Federal Deposit Insurance Corporation (FDIC) or any other agencies of the United States that insures deposits or the State of New Jersey Cash Management Fund.

The State of New Jersey Cash Management Fund is authorized by statute and regulations of the State Investment Council to invest in fixed income and debt securities that mature or are redeemed within one year. Twenty-five percent of the Fund may be invested in eligible securities that mature within two years provided, however, the average maturity of all investments in the Fund shall not exceed one year. Collateralization of Fund investments is generally not required.

In addition, by regulation of the Division of Local Government Services, municipalities are allowed to deposit funds in the Municipal Bond Insurance Association (MBIA) through their investment management company, the Municipal Investors Service Corporation.

In accordance with the provisions of the Governmental Unit Deposit Protection Act of New Jersey, ("GUDPA"), public depositories are required to maintain collateral for deposits of public funds that exceed insurance limits as follows:

The market value of the collateral must equal five percent of the average daily balance of public funds or

If the public funds deposited exceed 75 percent of the capital funds of the depository, the depository must provide collateral having a market value equal to 100 percent of the amount exceeding 75 percent.

2. CASH, CASH EQUIVALENTS AND INVESTMENTS (Continued)

A. Cash and Cash Equivalents (Continued)

All collateral must be deposited with the Federal Reserve Bank, The Federal Home Loan Bank Board or a banking institution that is a member of the Federal Reserve System and has capital funds of not less than \$25,000,000.00.

B. Investments

New Jersey statutes permit the Township to purchase the following types of securities:

- Bonds or other obligations of the United States of America or obligations guaranteed by the United States of America. This includes instruments such as Treasury bills, notes and bonds.
- Government money market mutual funds.
- Any Federal agency or instrumentality obligation authorized by Congress that matures within 397 days from the date of purchase, and has a fixed rate of interest not dependent on any index or external factors.
- Bonds or other obligations of the local unit or school districts of which the local unit is a part.
- Any other obligations with maturities not exceeding 397 days, as permitted by the Division of Investments.
- Local government investment pools, such as New Jersey CLASS and the New Jersey Arbitrage Rebate Management Program.
- New Jersey State Cash Management Fund.
- Repurchase agreements of fully collateralized securities, subject to special conditions.

In addition, a variety of State laws permit local governments to invest in a wide range of obligations issued by State governments and its agencies.

As of December 31, 2013, the Township had funds on deposit in checking accounts. The amount of the Township's Cash and Cash Equivalents as of December 31, 2013 was \$13,699,948.96. These funds constitute "deposits with financial institutions" as defined by GASB Statement No. 40. There were no securities categorized as investment as defined by GASB Statement No. 40.

3. TAXES AND TAX TITLE LIENS RECEIVABLE

Property assessments are determined on true values and taxes are assessed based upon these values. The residential tax bill includes the levies for the Township, County and School purposes. Certified adopted budgets are submitted to the County Board of Taxation by each taxing district. The tax rate is determined by the board upon the filing of these budgets.

The tax bills are mailed by the Tax Collector annually in June and are payable in four quarterly installments due the first of August and November of the current year and a preliminary billing due the first of February and May of the subsequent year. The August and November billings represent the third and fourth quarter installments and are calculated by taking the total year tax levy less the preliminary first and second quarter installments due February and May. The preliminary levy is based on one-half of the current year's total tax.

3. TAXES AND TAX TITLE LIENS RECEIVABLE (Continued)

Tax installments not paid by the above due dates are subject to interest penalties determined by a resolution of the governing body. The rate of interest in accordance with the aforementioned resolution is 8% per annum on the first \$1,500.00 of delinquency and 18% on any delinquency in excess of \$1,500.00. The governing body may also fix a penalty to be charged to a taxpayer with a delinquency in excess of \$10,000.00 who fails to pay that delinquency as billed prior to the end of the fiscal year. The penalty so fixed shall not exceed 6% of the amount of the delinquency with respect to each most recent fiscal year only. The resolution also sets a grace period of ten days before interest is calculated.

Taxes unpaid on the 11th day of the eleventh month in the fiscal year when the taxes became in arrears are subject to the tax sale provisions of the New Jersey statutes. The municipality may institute in rem foreclosure proceedings after six months from the date of the sale if the lien has not been redeemed.

The following is a five year comparison of certain statistical information relative to property taxes and property tax collections for the current and previous four years.

4. SPECIAL IMPROVEMENT DISTRICT ASSESSMENTS

Two Special Improvement Districts were established by ordinance of the Township of Maplewood in accordance with the provisions of N.J.S.A. 40:56-65 et seq. for the purposes of promoting the economic and general welfare of the district and the Township of Maplewood. The ordinance establishing the Special Improvement District for Maplewood Village was adopted on November 6, 1996 and Springfield Avenue was adopted on December 19, 2000.

Any property within the Special Improvement District is subject to the assessment. Any property which is incorporated, if it is exclusively used for residential purposes, and tax exempt properties are not subject to the special assessment.

Tax rates for the year 2013 are as follows:

Maplewood Village	\$.143
Springfield Avenue	\$.110

Total assessments for the year ending December 31, 2013 were \$180,989.46.

5. PROPERTY ACQUIRED BY TAX TITLE LIEN LIQUIDATION

The value of property acquired by liquidation of tax title liens on December 31, on the basis of the last assessed valuation of such properties, was as follows:

8. PENSION PLANS

Description of Systems

Substantially all of the Township's employees participate in one of the following contributory defined benefit public employee retirement systems which have been established by State statute: the Public Employees' Retirement System (PERS) or the Police and Firemen's Retirement System (PFRS). These systems are sponsored and administered by the New Jersey Division of Pensions and Benefits. The Public Employees' Retirement System and the Police and Firemen's Retirement System are considered a cost sharing multiple-employer plan.

8. PENSION PLANS (Continued)

Description of Systems (Continued)

Public Employees' Retirement System:

The Public Employees' Retirement System (PERS) was established as of January 1, 1955 under the provisions of N.J.S.A. 43:15A to provide retirement, death, disability and medical benefits to certain qualified members. The Public Employees' Retirement System is a cost-sharing multiple-employer plan. Membership is mandatory for substantially all full-time employees of the State of New Jersey or any county, municipality, school district or public agency, provided the employee is not required to be a member of another State-administered retirement system or other state or local jurisdiction.

Significant Legislation

P.L. 2011, c. 78, effective June 28, 2011, made various changes to the manner in which PERS operates and to the benefit provisions of that system.

This new legislation's provisions impacting employee pension and health benefits include:

- . New members of PERS hired on or after June 28, 2011 (Tier 5 members), will need 30 years of creditable service and age 65 for receipt of the early retirement benefit without a reduction of $\frac{1}{4}$ to 1 percent for each month that the member is under age 65.
- . The eligibility age to qualify for a service retirement in the PERS is increased from age 62 to 65 for Tier 5 members.
- . The annual benefit under special retirement for new PERS members enrolled after June 28, 2011 (Tier 3 members), will be 60 percent instead of 65 percent of the member's final compensation plus 1 percent for each year of creditable service over 25 years but not to exceed 30 years.
- . Active member contribution rates will increase. PERS active member rates increase from 5.5 percent of annual compensation to 6.5 percent plus an additional 1 percent phased-in over 7 years. For Fiscal Year 2013, the member contribution rates increased in July 2013. The phase-in of the additional incremental member contributions for PERS members will take place in July of each subsequent fiscal year.
- . The payment of automatic cost-of-living adjustment (COLA) additional increases to current and future retirees and beneficiaries is suspended until reactivated as permitted by this law.

In addition, this new legislation changes the method for amortizing the pension systems' unfunded accrued liability (from a level percent of pay method to a level dollar of pay).

Police and Firemen's Retirement System:

The Police and Firemen's Retirement System (PFRS) was established in July 1944, under the provisions of N.J.S.A. 43:16A to provide coverage to substantially all full time county and municipal police or firemen and State firemen appointed after June 30, 1944. Membership is mandatory for such employees. Members may opt for Service Retirement if over age 55 or Special Retirement at any age if they have a minimum of 25 years of service or 20 years of service if enrolled in the PFRS as of January 18, 2000. Retirement benefits vary depending on age and years of service.

Chapter 428, Public Law of 1999, effective January 18, 2000, allows a member, age 55 and older with 20 or more years of service, to retire with a benefit equaling 50% of final compensation, in lieu of the regular retirement allowance available to the member. Final compensation means the compensation received by the member in the last twelve months of creditable service preceding retirement.

8. PENSION PLANS (Continued)

Police and Firemen's Retirement System: (Continued)

In addition, a member of the system as of the effective date of this law may retire with 20 or more years of service with a retirement allowance of 50% of final compensation, regardless of age, and, if required to retire because of attaining the mandatory retirement age of 65, an additional 3% of final compensation for every additional year of creditable service up to 25 years.

Consolidated Police and Firemen's Pension Fund:

The Consolidated Police and Firemen's Retirement System (CPFPF) is a closed system with no active members and was established in January 1952 to provide coverage to municipal police and firemen who were appointed prior to July 1, 1944.

Contributions Required and Made

Contributions made by employees for PERS and PFRS are currently 6.78% and 10.0% of their base wages, respectively. Employer contributions are actuarially determined on an annual basis by the Division of Pensions. Contributions to the plan for the past three (3) years are as follows:

Year	PERS		PFRS		CPFPF
	Township	Employee	Township	Employee	Township
2013	\$ 742,670.00	\$ 406,585.57	\$ 2,633,752.00	\$ 962,872.40	\$ 37,220.02
2012	708,724.00	398,277.95	2,400,293.00	951,726.16	19,279.61
2011	713,459.00	356,017.84	2,456,517.00	852,756.36	63,833.22

The Township of Maplewood, in accordance with the provisions of Public Law 2009, c. 19 (S21), elected by resolution of the governing body to defer the 50% of their 2009 normal and accrued pension liability for the PERS and PFRS pension retirement system obligation in the amount of \$1,256,243.50. This deferred pension liability will be repaid over a 15 year period starting in April, 2012.

9. DEFINED CONTRIBUTION RETIREMENT PROGRAM

Description of System

The Defined Contribution Retirement Program (DCRP) was established on July 1, 2007 for certain public employees under the provisions of Chapter 92, P.L. 2007 and Chapter 103, P.L. 2007. The program provides eligible members, with a minimum base salary of \$1,500.00 or more, with a tax-sheltered, defined contribution retirement benefit, in addition to life insurance and disability coverage. The DCRP is jointly administered by the Division of Pensions and Benefits and Prudential Financial.

If the eligible elected or appointed official will earn less than \$5,000.00 annually, the official may choose to waive participation in the DCRP for that office or position. This waiver is irrevocable.

As of May 21, 2010, the minimum base salary required for eligibility in the DCRP was increased to \$5,000.00.

This retirement program is a new pension system where the value of the pension is based on the amount of the contribution made by the employee and employer and through investment earnings. It is similar to a Deferred Compensation Program where the employee has a portion of tax deferred salary placed into an account that the employee manages through investment options provided by the employer.

The law requires that three classes of employees enroll in the DCRP, detailed as follows:

- All elected officials taking office on or after July 1, 2007, except that a person who is reelected to an elected office held prior to that date without a break in service may remain in the Public Employees' Retirement System (PERS).

9. DEFINED CONTRIBUTION RETIREMENT PROGRAM (Continued)

Description of System (Continued)

- A Governor appointee with the advice and consent of the Legislature or who serves at the pleasure of the Governor only during that Governor's term of office.
- Employees enrolled in the PERS on or after July 1, 2007 or employees enrolled in the PFRS after May 21, 2010 who earn salary in excess of established "maximum compensation" limits.
- Employees otherwise eligible to enroll in the PERS on or after November 2, 2008 who do not earn the minimum salary for PERS Tier 3, but who earn salary of at least \$5,000.00.
- Employees otherwise eligible to enroll in the PERS after May 21, 2010, who do not work the minimum number of hours per week required for PERS Tier 4 or Tier 5 enrollment (32 hours per week) but who earn salary of at least \$5,000.00 annually.

Notwithstanding the foregoing requirements, other employees who hold a professional license or certificate or meet other exceptions are permitted to remain to join or remain in PERS.

Contributions Required and Made

Contributions made by employees for DCRP are currently at 5.5% of their base wages. Member contributions are matched by a 3.0% employer contribution. Contributions to the plan for the past three (3) years are as follows:

<u>Year</u>	<u>Township</u>	<u>Employees</u>
2013	\$ 8,502.66	\$ 15,621.50
2012	4,571.58	8,535.45
2011	2,736.98	5,096.21

10. POST-RETIREMENT BENEFITS

Plan Description

As of December 20, 1994, the Township of Maplewood no longer offers their employees post-retirement benefits. However, under an early retirement incentive program during 1993, the Township offered certain employees post-employment health benefits. Under this program, the Township will reimburse the retiree the premium paid for health insurance. As of December 31, 2013, there were three retirees in this program.

Funding Policy

The Township of Maplewood paid retirees in the early retirement incentive program \$25,335.06 for the year ended December 31, 2013.

11. MUNICIPAL DEBT

The Local Bond Law governs the issuance of bonds and notes to finance general capital expenditures. All bonds are retired in serial installments within the statutory period of usefulness. Bonds issued by the Township are general obligation bonds, backed by the full faith and credit of the Township. Pursuant to N.J.S.A. 40A:2-8.1, bond anticipation notes, which are issued to temporarily finance capital projects, cannot be renewed past the third anniversary unless an amount equal to at least the first legal requirement is paid prior to each anniversary and must be paid off within ten years and five months or retired by the issuance of bonds.

12. SCHOOL DEBT

The School District of South Orange and Maplewood is unique in that it is a combination of Type I and Type II school districts. It has an elected school board, but the electorate does not vote on the school budget. Instead, the Board of School Estimate approves the amount of local property taxes to be allocated in support of the schools. The Board of School Estimate is comprised of eight members, two from the Board of Education and three from each governing body. Approval of the amount to be raised by local school taxes requires five assenting votes, four of which must come from the representatives of the Townships' governing bodies.

The Board of School Estimate may only approve or reject the total amount of money to be raised by local taxes for current expenses and capital outlay for the fiscal year in question. Once the total amounts are approved, they have no authority or control over how the funds are actually allocated within those categories by the Board of Education.

If the Board of School Estimate will not approve a budget amount that is acceptable to the Board of Education, the Board of Education may appeal to the State Commissioner of Education for relief. In all cases, the taxes to be appropriated by each township are determined in proportion to the equalized ratable base of each community.

An additional function of the Board of School Estimate is to approve any assumption of long-term debt by the Board of Education. Since action by the Board of Education to incur long-term debt carries an obligation to pay over several years, the Board of School Estimate must approve that action. By their approval, the Board of School Estimate agrees to provide the necessary tax revenues to service the debt over the life of the obligation. Thus, funds obligated to debt services are not subject to the annual budget approval process as they have been previously approved by the Board of School Estimate.

14. DEFERRED CHARGES TO BE RAISED IN SUCCEEDING YEARS' BUDGETS

Certain expenditures are required to be deferred to budgets of succeeding years. At December 31, 2013, the following deferred charge is shown on the balance sheet of the Current Fund:

	<u>Balance Dec. 31, 2013</u>	<u>2014 Budget Appropriation</u>
Current Fund:		
Special Emergency Authorization	<u>\$ 110,000.00</u>	<u>\$ 110,000.00</u>

15. DEFERRED COMPENSATION PLAN

The Township of Maplewood offers its employees a Deferred Compensation Plan created in accordance with the provisions of N.J.S. 43:15B-1 et seq., and the Internal Revenue Code, Section 457. The plan, available to all municipal employees, permits them to defer a portion of their salary until future years. The deferred compensation is not available to employees until termination, retirement, death or unforeseeable emergency.

Statutory and regulatory requirements governing the establishment and operation of Deferred Compensation Plans have been codified in the New Jersey Administrative Code under the reference N.J.A.C. 5:37.

The "Small Business Job Protective Act of 1996" revised several provisions of Section 457 of the Internal Revenue Code. A provision of the act required that all existing plans be modified to provide that the funds be held for the exclusive benefit of the participating employees and their beneficiaries.

The Township of Maplewood authorized such modifications to their plan by resolution of the Township Committee adopted June 16, 1998.

The Administrator for the Township of Maplewood's Deferred Compensation Plan is Metlife Securities, Inc. and I.C.M.A.

The Plan was subject to a review only as defined by the New Jersey Division of Local Government Services and the American Institute of Certified Public Accountants. A review consists principally of inquiries of Township officials and analytical procedures applied to financial data. It is substantially less in scope than an examination in accordance with generally accepted auditing standards. The audit of the program lies within the scope of the audit of the independent accountants of the Metlife Securities, Inc. and I.C.M.A.

16. RISK MANAGEMENT

The Township of Maplewood is a member of the Garden State Municipal Joint Insurance Fund with respect to General Liability, Property, Workers' Compensation and Employer Liability.

Members may be subject to additional assessments and are also responsible for their respective share of the fund's liabilities, should the fund be dissolved.

Payment to this Fund for the year 2013 was the sum of \$838,263.05.

17. CONTINGENT LIABILITIES

A. Compensated Absences

The Township of Maplewood has an Accrued Sick Policy Plan whereby certain eligible employees, upon retirement, will receive compensation for accumulated sick time.

As of January 1, 1978 employees in the United Construction Trades and Industrial Employees' International Union can accumulate unused sick time. Upon retirement, eligible employees will receive one-half of the accumulated sick time, but such payment shall not exceed \$12,000.00.

Any employee in the Communication Workers' of America, Local 1031 Union can accumulate unused sick time. Upon retirement, eligible employees, hired prior to January 1, 2002, will be paid for up to 90 sick days at full pay and up to an additional 90 days at half pay.

Police officers and firemen cannot accumulate sick and vacation days. Upon retirement, they would only get paid for the vacation days they did not use in the previous year.

It is estimated that the sum of \$274,884.72 computed internally at the 2013 salary rates, would be payable to various officials and employees of the Township of Maplewood as of December 31, 2013 for accumulated sick and vacation days and unused holidays. These figures have been calculated by management and are unaudited. Provision for the above are not reflected on the Financial Statements of the Township.

B. Tax Appeals

As of May 6, 2014, there were one hundred forty-one appeals pending before the New Jersey Tax Court with an assessed valuation of \$454,491,000.00. Potential liability was undeterminable.

Judgments favorable to the taxpayers generally extend to two years following the year judged and would also subject the Township to a liability for statutory interest based upon the amount of taxes refunded from the date of payment to the date of refund (R.S. 54:3-27.2).

C. Federal and State Awards

The Township participates in several federal and state grant programs which are governed by various rules and regulations of the grantor agencies; therefore, to the extent that the Township has not complied with the rules and regulations governing the grants, refunds of any money received may be required and the collectibility of any related receivable at December 31, 2013 may be impaired. In the opinion of management, there are no significant contingent liabilities relating to compliance with the rules and regulations governing the respective grants; therefore, no provisions have been recorded in the accompanying statutory basis financial statements for such contingencies.

17. CONTINGENT LIABILITIES (Continued)

D. Arbitrage Rebate Calculation

In 1985, under the Tax Reform Act, the Arbitrage Rebate Law went into effect requiring issuers of tax exempt debt obligations to rebate to the Federal Government all of the earnings in excess of the yield on investments of proceeds of such debt issuances (the "rebate arbitrage"). The Rebate Regulations apply to obligations issued after August 31, 1986. The arbitrage rebate liability must be calculated every installment computation date (last day of the fifth bond year) or earlier if the bonds are retired, defeased or refunded and pay at least 90% of the rebatable arbitrage (plus any earnings thereon) within 60 days after such date.

E. Payments in Lieu of Taxes (PILOT)

Under N.J.S.A. 40A:20-12, each municipality is required to annually remit to the County five percent (5%) of the annual service charge for each long-term PILOT financial agreement entered into by the municipality.

F. Litigation

There is no significant litigation or any contingent liabilities, unasserted claims or assessments or statutory violations which would affect the financial position or results of operations of the Township other than that listed below.

General liability claims pending against the Township are handled by insurance carriers.

18. SECONDARY MARKET DISCLOSURE

Solely for purposes of complying with Rule 15c2-12 of the Securities and Exchange Commission, as amended and interpreted from time to time (the "Rule"), and provided that the Bonds are not exempt from the Rule and provided that the Bonds are not exempt from the requirements in accordance with Paragraph (d) of the Rule, for so long as the Bonds remain outstanding (unless the Bonds have been wholly defeased), the municipality shall provide for the benefit of the holders of the Bonds and the beneficial owners thereof various financial documents relating to the financial conditions of the Municipal Securities Rulemaking Board through the Electronic Municipal Access Data Port (the "MSRB").

19. SUBSEQUENT EVENTS

The Township of Maplewood has evaluated subsequent events that occurred after the balance sheet date, but before May 16, 2014. No items were determined to require disclosure.

REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members
of the Township Committee
Township of Maplewood
Maplewood, New Jersey 07040

We have audited the financial statements - regulatory basis of the various funds of the Township of Maplewood, in the County of Essex, as of and for the years ended December 31, 2013 and December 31, 2012, and the related notes to the financial statements and have issued our report thereon dated May 16, 2014. These financial statements - regulatory basis have been prepared in conformity with accounting principles prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, which is a basis of accounting other than accounting principles generally accepted in the United States of America. We conducted our audit in accordance with auditing standards generally accepted in the United States of America, audit requirements prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements - regulatory basis, we considered the Township's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of the Township's internal control. Accordingly, we do not express an opinion on the effectiveness of the Township's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. *A material weakness* is a deficiency, or a combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the Township's financial statements will not be prevented, or detected and corrected on a timely basis. *A significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of the internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the Township's financial statements - regulatory basis are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*. However, we noted certain matters that we reported to management in the comments and recommendations section of this report.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of the Township's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the Township's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

REPORT ON COMPLIANCE FOR EACH MAJOR PROGRAM; REPORT ON INTERNAL CONTROL OVER COMPLIANCE AND REPORT ON THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS REQUIRED BY OMB CIRCULAR A-133

INDEPENDENT AUDITOR'S REPORT

The Honorable Mayor and Members
of the Township Committee
Township of Maplewood
Maplewood, New Jersey 07040

Report on Compliance for Each Major Federal Program

We have audited the Township of Maplewood in the County of Essex, State of New Jersey, compliance with the types of compliance requirements described in the OMB Circular A-133 *Compliance Supplement* that could have a direct and material effect on each of the Township's major federal programs for the year ended December 31, 2013. The Township's major federal programs are identified in the *Summary of Auditor's Results* section of the accompanying *Schedule of Findings and Questioned Costs*.

Management's Responsibility

Management is responsible for compliance with the requirements of laws, regulations, contracts and grants applicable to each of its major federal programs.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the Township's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and OMB Circular A-133, Audits of States, Local Governments, and Non-Profit Organizations. Those standards and OMB Circular A-133 require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about the Township's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination on the Township's compliance.

Opinion on Each Major Federal Program

In our opinion, the Township of Maplewood complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2013.

Report on Internal Control Over Compliance

Management of the Township of Maplewood is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the Township's internal control over compliance with the types of requirements that could have a direct and material effect on a major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with OMB Circular A-133, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the Township of Maplewood's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing based on the requirements of OMB Circular A-133. Accordingly, this communication is not suitable for any other purpose.

Report on Schedule of Expenditures of Federal Awards Required by OMB Circular A-133

We have audited the financial statements of the Township of Maplewood - regulatory basis as of and for the year ended December 31, 2013, and have issued our report thereon dated May 16, 2014, which contained an unmodified opinion on those financial statements. Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The accompanying schedule of expenditures of federal awards is presented for purposes of additional analysis as required by OMB Circular A-133 and is not a required part of the financial statements. Such information is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the financial statements as a whole.

TOWNSHIP OF MAPLEWOOD
NOTES TO THE SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
DECEMBER 31, 2013

1. GENERAL

The accompanying Schedule of Expenditures of Federal Awards presents the activity of all federal programs of the Township of Maplewood. The Township of Maplewood is defined in Note 1(A) to the Township's regulatory basis financial statements. All federal financial assistance received directly from federal agencies as well as federal financial assistance, passed-through other government agencies, is included on the Schedule of Expenditures of Federal Awards.

2. BASIS OF ACCOUNTING

The accompanying Schedule of Expenditures of Federal Awards are presented on the prescribed basis of accounting, modified accrual basis with certain exceptions, prescribed by the Division of Local Government Services, Department of Community Affairs, State of New Jersey, that demonstrates compliance with the budget laws of New Jersey, which is a comprehensive basis of accounting other than generally accepted accounting principles. This basis of accounting is described in Notes 1(c) and 1(d) to the Township's regulatory basis financial statements.

3. RELATIONSHIP TO FEDERAL FINANCIAL REPORTS

Amounts reported in the accompanying schedule agree with the amounts reported in the related federal financial reports.

4. RELATIONSHIP TO REGULATORY BASIS FINANCIAL STATEMENTS

Amounts reported in the accompanying schedule agree with amounts reported in the Township's regulatory basis financial statements. Matching contributions expended by the Township in accordance with terms of the various grants are not reported in the accompanying schedule.

The Honorable Mayor and Members
of the Township Committee
Township of Maplewood
Maplewood, New Jersey 07040

Madame and Gentlemen:

We have audited the financial statements - regulatory basis, Federal and State Financial Assistance Programs and supplemental schedules and data of the

TOWNSHIP OF MAPLEWOOD COUNTY OF ESSEX

for the years ended December 31, 2013 and December 31, 2012 and have issued our report thereon. As part of our audit, we reviewed and tested the municipality's system of internal accounting control to the extent we considered necessary to evaluate the system as required by auditing standards generally accepted in the United States of America by the Division of Local Government Services of the Department of Community Affairs, State of New Jersey; by the *Government Auditing Standards* issued by the U.S. General Accounting Office; and by the provisions of the "Single Audit Act of 1984". Compliance requirements were also reviewed in accordance with the requirements of the aforementioned standards and guidelines or, where applicable, the terms and conditions of particular grant agreements and as approved by the Cognizant Audit Agency.

Our comments with respect to the audit, internal control, and any error, omission, irregularity, violation of law, discrepancy or other nonconformity to the law or regulation found during the audit are herewith set forth.

Contracts and Agreements Required to be Advertised per (N.J.S.A. 40A:11-4)

N.J.S.A. 40A:11-4a states "Every contract awarded by the contracting agent for the provision or performance of any goods or services, the cost of which in the aggregate exceeds the bid threshold, shall be awarded only by resolution of the governing body of the contracting unit to the lowest responsible bidder after public advertising for bids and bidding therefore, except as is provided otherwise in this act or specifically by any other law. The governing body of a contracting unit may, by resolution approved by a majority of the governing body, disqualify a bidder who would otherwise be determined to be the lowest responsible bidder, if the governing body finds that it has had prior negative experience with the bidder."

It is pointed out that management has the responsibility of determining whether the expenditures in any category will exceed the threshold set for the fiscal year and, where question arises as to whether any contract or agreement might result in violation of the statute, the opinion of the Township Attorney should be sought before a commitment is made.

The statutory bidding threshold for the year 2013 was the sum of \$36,000.00 effective July 1, 2010 in accordance with the provisions of N.J.S.A. 40A:11-3a, based on the appointment of a qualified purchasing agent.

Notwithstanding N.J.S.A. 40A:11-3a, P.L. 2005, Chapter 51 and N.J.S.A. 19:44A-20.5, known as the "Pay to Play Law" provides that a municipality is prohibited from executing any contract in excess of \$17,500.00, on or after January 1, 2006, to a business entity that made certain reportable contributions to any municipal committee of a political party if a member of that party is in office as a member of the governing body of the municipality when the contract is awarded unless proposals or qualifications are solicited through a fair and open process.

It is further noted that contracts between \$17,500.00 and the municipal bidding threshold, known as "window contracts", can be issued by resolution of the governing body without competitive bidding if a non-fair and open process is implemented which prohibits reportable contributions by the business entity.

The minutes indicate that bids were requested by public advertising for the following items:

Service and Construction Contracts:

- Snow Plowing Services
- Upper Ridgewood Drainage Project
- Repair and Replacement of Curbs and Sidewalks
- ADA Improvements at Burgdorff Center
- Installation of Generator at Dehart Community Center
- Installation of Generator at Municipal Building
- Air Conditioning Upgrades at Memorial Library
- Upper Ridgewood Drainage Improvements
- Various Road Improvements
- Memorial Park River Retaining Wall Repairs
- Storm Drainage Improvements
- Prospect Street Improvements - Phase II
- Asbestos and Mold Remediation at 60 Woodland Road
- Marketing of Recyclable Materials

Vehicles and Equipment:

- 2014 Type "C" Conventional Bus

The minutes also indicate that proposals were solicited for professional services in accordance with the provisions of N.J.S.A. 19:44A-20.5.

It was also noted that the Township awarded several contracts through their participation in the Morris County Cooperative Pricing Council, and under the provisions of N.J.S.A. 40A:11-12, New Jersey State Purchasing Contracts.

Examination of Claims

In verifying expenditures, computations were made on a statistical sample of claims approved and paid. No attempt was made in this connection to establish proof of rendition, character or extent of services, nor quantities, nature, propriety of prices or receipt of materials, these elements being left necessarily to internal review in connection with approval of claims.

Collection of Interest on Delinquent Taxes and Assessments

N.J.S.A. 54:4-67, as amended, provides the method for authorizing interest and the maximum rate to be charged for the nonpayment of taxes or assessments on or before the date when they would become delinquent. The Governing Body on January 16, 2005 adopted the following resolution authorizing interest to be charged on delinquent taxes and assessments:

"WHEREAS, R.S. 54:4-67 permits the governing body of each municipality to fix the rate of interest to be charged for nonpayment of taxes or assessments subject to any abatement or discount for the late payment of taxes as provided by law, and

WHEREAS, R.S. 54:4-67 has been amended to permit the fixing of said rate of eight (8) percent per annum on the first \$1,500.00 of the delinquency and eighteen (18) percent per annum on any amount in excess of \$1,500.00;

NOW, THEREFORE, BE IT RESOLVED, on the 16th day of January, 2005, by the Township Committee of the Township of Maplewood, County of Essex, State of New Jersey as follows:

1. The Collector of Taxes is hereby authorized and directed to charge eight (8) percent per annum on the first \$1,500.00 of taxes becoming delinquent after the due date and eighteen (18) percent per annum on any delinquent amount of taxes in excess of \$1,500.00 becoming delinquent after the due date, subject to any abatement or discount for the late payment of taxes as provided by law.
2. Tax payments, due quarterly as billed, shall have a ten (10) day grace period from the due date in which a payment in cash, check or money order can be accepted without an interest penalty.
3. Any payment not made in accordance with paragraph two of this resolution shall be charged interest from the due date, as set forth in paragraph one of this resolution.

Our test of interest on delinquent taxes indicated that interest was collected in accordance with the provisions of the above resolution.

Delinquent Taxes and Tax Title Liens

Delinquent taxes, in the sum of \$24,839.43, exclusive of 2013, are summarized as follows:

<u>Year</u>	<u>Amount</u>
2007	\$ 500.00
2008	3,908.61
2009	2,757.31
2010	8,395.06
2011	7,358.09
2012	1,920.36
	<hr/>
	\$ 24,839.43

A tax sale was held on October 9, 2013 and was complete.

The following comparison is made of the number of tax title liens receivable on December 31st of the last three years:

<u>Year</u>	<u>Number of Certificates</u>
2013	3
2012	3
2011	4

Tax Office

Several errors were noted on the yearly reports prepared by the Tax Collector for allowed and disallowed senior citizen and veteran deductions as filed with the State of New Jersey.

It is recommended that reports filed with the State of New Jersey for senior citizen and veteran deductions be in agreement with the Tax Collector's records.

Verification of Delinquent Taxes and Other Charges

A test verification of unpaid charges and current payments in accordance with the regulations of the Division of Local Government Services, consisted of notices as follows:

<u>Type</u>	<u>Number of Notices</u>
Payment of 2013 Taxes and 2014 Taxes	125
Payment of Sewer Rents	120
Delinquent Taxes	10
Unpaid Sewer Utility Charges	7
Tax Title Liens	3
	<hr/>
	265
	<hr/>

There were no exceptions developed in connection with our examination.

Revenue Collecting Officials

Construction Code Official:

Receipting and record maintenance procedures implemented in the Office of the Construction Code Official appear to be in accordance with the provisions of the Uniform Construction Code of New Jersey and the precepts and directives of the New Jersey Division of Housing and Development in the Department of Community Affairs. The system mandates the use of standardized forms prepared and distributed by the State to all Chief Construction Code Officials. Private contracts may also maintain supplies of application forms. The forms are not prenumbered and their prescribed use eliminates such time-proven and inherent assurances of accountability, control of inspections and fiscal activity thus afforded. Reliance of the accuracy and integrity of all departmental activity is therefore necessarily placed upon internal numbering systems and recording practices.

Collection of the Construction Code Official's revenue was not turned over to the Tax Collector within 48 hours after receipt, in accordance with the provisions of N.J.S.A. 40A:5-15.

It is recommended that departmental collection procedures be reviewed for the Construction Code Official to ensure compliance with deposit provisions of N.J.S.A. 40A:5-15.

Clerk's Office:

Amounts due to the State of New Jersey for 2013 marriage licenses as of December 31, 2013 were not in agreement with fiscal year 2014 payments, detailed as follows:

Balance December 31, 2013	\$ 625.00
Fiscal Year 2014 Payment	<u>1,650.00</u>
Overpayment	<u><u>\$(1,025.00)</u></u>

It is recommended that the overpayment to the State of New Jersey for marriage license fees be reviewed and a determination made as to proper disposition.

Public Works Department:

Collection of Public Works Department revenue was not turned over to the Tax Collector within 48 hours after receipt, in accordance with the provisions of N.J.S.A. 40A:5-15.

It is recommended that departmental collection procedures be reviewed for the Public Works Department to ensure compliance with deposit provisions of N.J.S.A. 40A:5-15.

The date in the cash receipts book is not the actual collection date.

It is recommended that the date posted in the cash receipts book for the Public Works Department be the actual date of collection.

Animal Control Trust Fund

Comments with respect to the Animal Control Trust Fund are as follows:

- The adjusted cash receipts book for the Health Department did not agree to the Tax Collector's records, detailed as follows:

Receipts per Health Department	\$ 16,533.20
Tax Collector's Records	<u>16,704.80</u>
Difference	<u><u>\$ (171.60)</u></u>

- During our review it was noted that there were several errors on the dog license reports filed with the State of New Jersey.
- Fees collected by the Health Department for dog licenses were not posted in the cash receipts book on the actual collection date.

The following recommendations are noted:

That more care be exercised in maintaining the cash receipts book for the Health Department and that collections be reconciled to the records of the Tax Collector on a monthly basis.

That more care be exercised in preparing the monthly dog license reports filed with the State of New Jersey.

That the date posted in the cash receipts book for the Health Department be the actual date of collection.

Accounts Receivable

Certain accounts receivable, as reflected on the Current Fund and General Trust Fund balance sheets, have remained open as of December 31, 2013, and are detailed as follows:

<u>Purpose</u>	<u>Amount</u>

It is recommended that certain accounts receivable items be reviewed and a determination made as to proper disposition.

Payment in Lieu of Taxes

The Colgate Road Development, Inc. did not file gross revenue amounts with the Township in accordance with the terms of the agreement.

It is recommended that the gross revenue amounts required to be filed by the Colgate Road Development, Inc. be available for audit review.

Outside Employment of Police Officers

The special rate charged for outside employment of police officers that work for municipal alliance was not approved by ordinance adopted by the Township Committee.

It is recommended that all fees collected for outside employment of police officers be approved by ordinance adopted by the Township Committee.

Credit Card Fees

Credit card fees collected by the Township were not approved by ordinance adopted by the Township Committee.

It is recommended that credit card fees be approved by ordinance adopted by the Township Committee.

It is recommended that certain grants be reviewed and appropriate action be taken as to their disposition.

Payroll Fund

During 2004, the Township of Maplewood contracted with ADP to be the third party payroll service provider. ADP has the authority to withdraw funds from Township accounts and transfer these funds to their own accounts for purpose of the payment to certain agencies with regard to payroll deductions.

An audit of the service provider's payroll account was not provided to the Township nor did our staff prepare such an audit. We did review certain records provided to the Township. It should be noted however, that we could not verify required payments of Federal and State agencies made by the service provider.

The Local Finance Board has adopted rules and regulations regarding third-party payroll vendors which are summarized in N.J.A.C. 5:30-17 and further provides authority for local governments to hire payroll service vendors to disburse funds to payroll agencies on behalf of the local unit.

In addition, Local Finance Notice 2009-18 has offered additional safeguards with respect to third-party payroll services.

Municipal Court

A statutory report on the operations of the Municipal Court has been prepared and copies filed with the New Jersey Administrative Office of the Courts, the Division of Local Government Services, the Municipal Court and the Township Clerk.

Collections of the Court are summarized as follows:

<u>Agency</u>	<u>Balance Dec. 31, 2012</u>	<u>Receipts</u>	<u>Disbursements</u>	<u>Balance Dec. 31, 2013</u>
State of New Jersey	\$ 13,995.19	\$ 230,208.95	\$ 224,750.80	\$ 19,453.34
County	5,342.50	86,666.75	85,106.25	6,903.00
Municipality	31,258.31	474,070.32	467,954.97	37,373.66
Other Agencies and Sources	1,109.34	18,158.31	18,434.15	833.50
Cash Bail	8,251.00	59,156.00	62,704.00	4,703.00
	<u>\$ 59,956.34</u>	<u>\$ 868,260.33</u>	<u>\$ 858,950.17</u>	<u>\$ 69,266.50</u>

Comments with respect to the Municipal Court are as follows:

All tickets that have been assigned must be issued within six months. On December 31, 2013, there were 550 tickets that were assigned but not issued in excess of six months.

All tickets that are issued must be properly assigned. On December 31, 2013, there were 3 tickets that were issued but not assigned.

The following recommendation is noted:

That tickets assigned but not issued in excess of six months be reviewed for proper disposition and that follow-up procedures be implemented for tickets whether issued or assigned.

Corrective Action Plan

In accordance with the requirements of the Single Audit Act and regulations of the Division of Local Government Services, a corrective action plan must be prepared by the Chief Financial Officer, filed with the Division of Local Government Services within sixty days from the date the audit is received by the Governing Body and approved by resolution of the Municipal Council.

The Corrective Action Plan was prepared by the Chief Financial Officer and filed in accordance with the aforementioned regulations.

Status of Prior Years' Audit Recommendations

A review was performed on all prior years' recommendations and corrective action was taken on all with the exception of those recommendations marked with an asterisk.

Miscellaneous

Revenue and receipts were established and verified as to source and amount only insofar as the local records permitted.

No responsibility for reporting is assumed for liabilities arising from matters in litigation, contingent liabilities or from projects funded by Federal, State or other sources that may not be included in the Township Budget as adopted or amended; not subjected to Township ordinance or resolution; and not recorded on the general books and records of the Township.

All sums of outstanding checks, shown in cash reconciliations herein, are in agreement with the adjusted records of the Township.

A report summarizing collections of Dog License Fees and remittances of State Registration Fees was prepared and filed with the New Jersey Department of Health and the Division of Local Government Services for the year 2013.

The number of areas commented upon in this report and the resulting recommendations, are for the purpose of attaining a more efficient and fiscally sound operation. It is urged that effort be initiated by the Governing Body to implement the resulting recommendations.

One copy of this report was filed with the New Jersey Division of Local Government Services in the Department of Community Affairs.

A summary or synopsis of this report was prepared for publication and filed with the Township Clerk.
