

Township of Maplewood

Consent of Neighbor for Backyard Chicken Raising

Maplewood Township Ordinance 2709-13 establishes a program that will permit fifteen residents within the Township to raise up to five chickens for the purpose of egg gathering. This ordinance requires written consent of all contiguous property owners.

This ordinance requires that persons participating in the program will complete an application showing dimensions of the coop and run and showing distances from homes and neighboring properties. No coop or run is to be closer than ten (10) feet from a property line or thirty (30) feet from a neighboring house. If the distances are less than these, then additional written consent (part 2. below) is required. All portions of the coop and run are to be kept in a clean sanitary condition. Any evidence of rodent infestation will result in revocation of the permit. Failure to abide by the provisions of the ordinance or failure to keep the coop and run in a sanitary condition will result in revocation of the permit. No roosters are allowed.

Part 1.

By signing this consent form, you are giving consent for your neighbor to conduct backyard chicken raising of up to five chickens for the period of the program.

Name(s) _____

Address _____ Block/lot _____

Telephone _____

Signature _____ Date _____

Part 2.

***Additional consent for properties where the coop and run are within 10 feet of the property line or 30 feet from neighboring house. By signing below, the neighbor agrees to consent to application that shows the distance of the coop or run to be less than 10 feet from the property line and/or less than 30 feet from neighboring house.
